FOR IMMEDIATE RELEASE
April 2, 2020

Household Solid Waste Collection

Household solid waste collection may be delayed in your area due to the current situation we are all dealing with in our community. Waste Connections is operating under the same circumstances that everyone else is working under during these trying times.

Waste Connections is running their routes daily, but due to a number of issues, including illness and increased volume, collection may be delayed by a day or more. Waste Connections employees are working long, hard hours during this time to continue to carry out this essential service. They will continue to serve the parish during this time and we are asking for your patience and understanding with any delay in your solid waste collection.
